# Global Outreach

ISI has an active ministry presence in each of these locations as part of our global expansion:

# Students Responding to Their Faith

## World Changers Conference 2022:

44 students from 17 countries attended the World Changers Conference that teaches believing international students to be disciple-makers in their spheres of influence.

## TRUE Leadership Conference 2022:

21 students from 15 countries attended the TRUE Leadership Conference that provides Christian-based business ethics training and leadership development to international students.

## NGO Go 2023:

NGO Go originated from World Changers after several students desired to launch their own organizations and businesses that serve needy communities in their home countries.

Students are trained on how to start their own “non-government organizations” with the help of well-known business leaders.

9 students from Africa Nigeria, Cameroon, Tanzania, Democratic Republic of the Congo, Rwanda, and Togo attended.

**Our team visited over 370 former students (Returnees) plus their families and friends for ongoing discipleship and encouragement in the following countries:**
